EXPLORE THE ART & SCIENCE OF WISHING WITH

BROWNELL LANDRUM

📚 Storyteller, 🎤 TEDx speaker, 💡 Inventor, and ⚡ Change Catalyst

Learn how to turn wishes into Cosmic Wishes using Science!

Brownell Landrum is a TEDx speaker and the author of the new book, The Art and Science of Wishing, the Cosmic Wishes children's book, and the upcoming The Art & Science of Wishing at Work. She is also the author of over a dozen books, both fiction and nonfiction, the host of the Cosmic Wishes show (launched June 2, 2026), where she helps guests turn wishes into Cosmic Wishes by applying Science.

Why Wishing?

Did you know that wishing is something everyone does, across all cultures around the world? And that every time you wish, you engage over a dozen different sciences - from neuroscience and psychology to quantum physics?

Brownell's research reveals that wishing isn't just birthday candles and shooting stars - it's a universal practice woven throughout every culture and faith tradition, making it one of humanity's most powerful expressions of hope, intention, and survival.

The Cosmic Wishes Show: A Unique Guest Swap Opportunity

In addition to being a guest on your show, Brownell would love to "flip the script" and have you on her Cosmic Wishes show, too. How it works: You come with a wish from one (or more) of the three categories below. Then, Brownell will turn draw both a Science Card and an Activity Card and turn your wish into a Cosmic Wish using SCIENCE!

1. A personal or professional wish (that you're willing to share)
2. A wish that ripples — for your community, fans, followers, or the world
3. A whimsical wish — something fun that makes you smile

You can then share this episode with your fans and followers, too, so they can get to know you – and your wishes – better so they can support you even more!

How do you know if Brownell is right for your show?

- You have a mission and/or a message you want to reach the world
- You want to discuss a fascinating, universal topic everyone can relate to, no matter where they live or what they "believe" in or not (though a curiosity about science is a plus!)
- You're interested in elevating human awareness
- You want to have something FUN for your fans and followers to discuss!

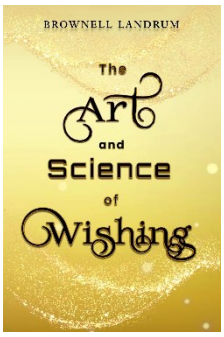
About The Art & Science of Wishing

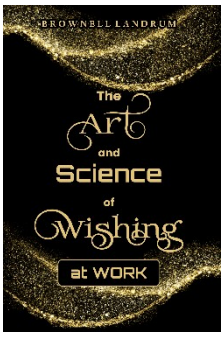
EXPLORE THE ART & SCIENCE OF WISHING WITH

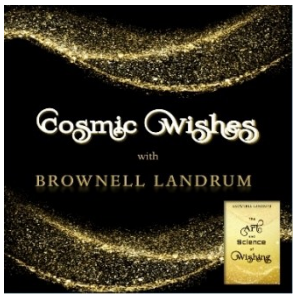
BROWNELL LANDRUM

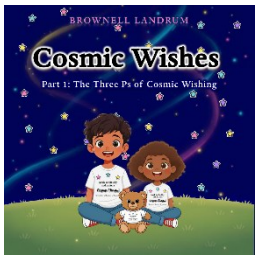
📚 Storyteller, 🎤 TEDx speaker, 💡 Inventor, and ⚡ Change Catalyst

The Art & Science of Wishing is a groundbreaking book, drawing on extensive research from over 70 scientists across dozens of disciplines and wishing rituals from 50 countries, Brownell Landrum explores the multi-dimensional aspects of this seemingly common yet amazingly complex practice and reveals how to elevate your own wishing practice by applying the Art – and Science – of Wishing to turn your wishes into Cosmic Wishes.









About Brownell's TEDx Talk

In April 2026 Brownell delivered an engaging TEDx talk about the Art & Science of Wishing. In the talk she takes the audience through a journey to apply five different scientific principles to their wish, including anthropology, neuroplasticity, the Reticular Activating System, the Default Mode Network, and psychobiology. The video is scheduled to be released worldwide in Summer 2026.

Brownell's Books, Stories, and Screenplays

Brownell is also an author of over a dozen books, both fiction and nonfiction, including Five Reasons Why Bad Things Happen, The Hero's Playbook, the We Meet Again Trilogy, A Love Story to the Universe, and more. The motto for her novels is:

Lose yourself in the fiction, find yourself in the truth.

- YouTube Channel (Home of the Cosmic Wishes Show)
- *We Meet Again* trilogy
- *A Love Story to the Universe*
- *Five Reasons Why Bad Things Happen: How to Turn Tragedies Into Triumph*
- *DUET stories* novel series
- Wonderactive Children's books, including *Sometimes I Wonder* and *This Isn't My First Time*
- *INSPIRITORS* middle grade novel and screenplay
- *Denouement* novel and screenplay
- *Life is a Trip* Podcast
- And more!

Topics Brownell Is Always Ready To Discuss:

EXPLORE THE ART & SCIENCE OF WISHING WITH

BROWNELL LANDRUM

📚 Storyteller, 🎤 TEDx speaker, 💡 Inventor, and ⚡ Change Catalyst

- The Art & Science of Wishing and The Art & Science of Wishing at Work
- Metaphysical Mysteries like reincarnation, the Upstairs, and more.
- My novels! Including We Meet Again, and epic reincarnation mystery + love story
- A Love Story to the Universe, a semi-autobiographical novel about a team Upstairs.
- The Five Reasons Why Bad Things Happen

Suggestions for Interview Questions

Pick and choose based on your show's angle!

The Art (Origin Story)

- You're a self-described storyteller who wrote a novel about Wish Fairies that led to a science book. How did that happen?
- You've said writing this book was like "whack-a-mole" — what do you mean?
- What's the difference between a wish and a cosmic wish?

The Science

- You say that every time you make a wish, you engage over a dozen different sciences. Is that for real? What sciences?
- You cite over 70 scientists — what was the most surprising thing you discovered?
- Why do wishing rituals appear in virtually every human culture?
- Which science of wishing was the most compelling to you?

Practical Application

- What is the difference between a wish, a prayer, and a goal?
- What are the Three P's, and how do they make wishes more effective?
- What are the four responses to wishes?
- What should people do when their wish doesn't come true?
- How can listeners apply this to their own wishes?

The Bigger Picture

- How is "Cosmic Collaboration" different from The Secret or Law of Attraction?
- What your bigger mission with Cosmic Wishes? What do you hope to accomplish?
- You're not a scientist — why should people trust this book?

Partnership & Promotion

I believe in true partnership with podcasters. When you share your platform with me, I want to amplify YOUR message too!

What I'll Do:

EXPLORE THE ART & SCIENCE OF WISHING WITH

BROWNELL LANDRUM

📚 Storyteller, 🎤 TEDx speaker, 💡 Inventor, and ⚡ Change Catalyst

- Share the episode across all my platforms using your preferred hashtags and branding, including my Facebook group of over 12,000 members
- Create clips with Opus Clips to share, share, share!
- Tag you and encourage my followers to listen
- Be responsive and engaged with promotion
- And, if you're interested, invite you on my Cosmic Wishes Show (see below)

What I Provide:

- My official headshot and book cover images for your show notes
- Any specific background info or context that helps your audience connect with our topics

What I Need From You:

- Video file of our interview (if applicable)
- Your preferred hashtags and promotional angles
- Episode link and air date so I can promote at the right time
- Video clips or audiograms (if you create them) that I can share on my platforms

My Core Hashtags: #brownelllandrum | #cosmicwishes | #artandscienceofwishing

BEYOND THE INTERVIEW: A Special Opportunity for Mission-Driven Podcasters

If you have a message you want to turn into a movement, I'd love to share how The Cosmic Wish Experiment can help you transform your podcast audience into an active community creating measurable change - completely FREE.

Interested? Ask me for the "Cosmic Wish Circles for Thought Leaders" document to learn how podcasters like you are turning episodes into movements.
