BROWNELL LANDRUM

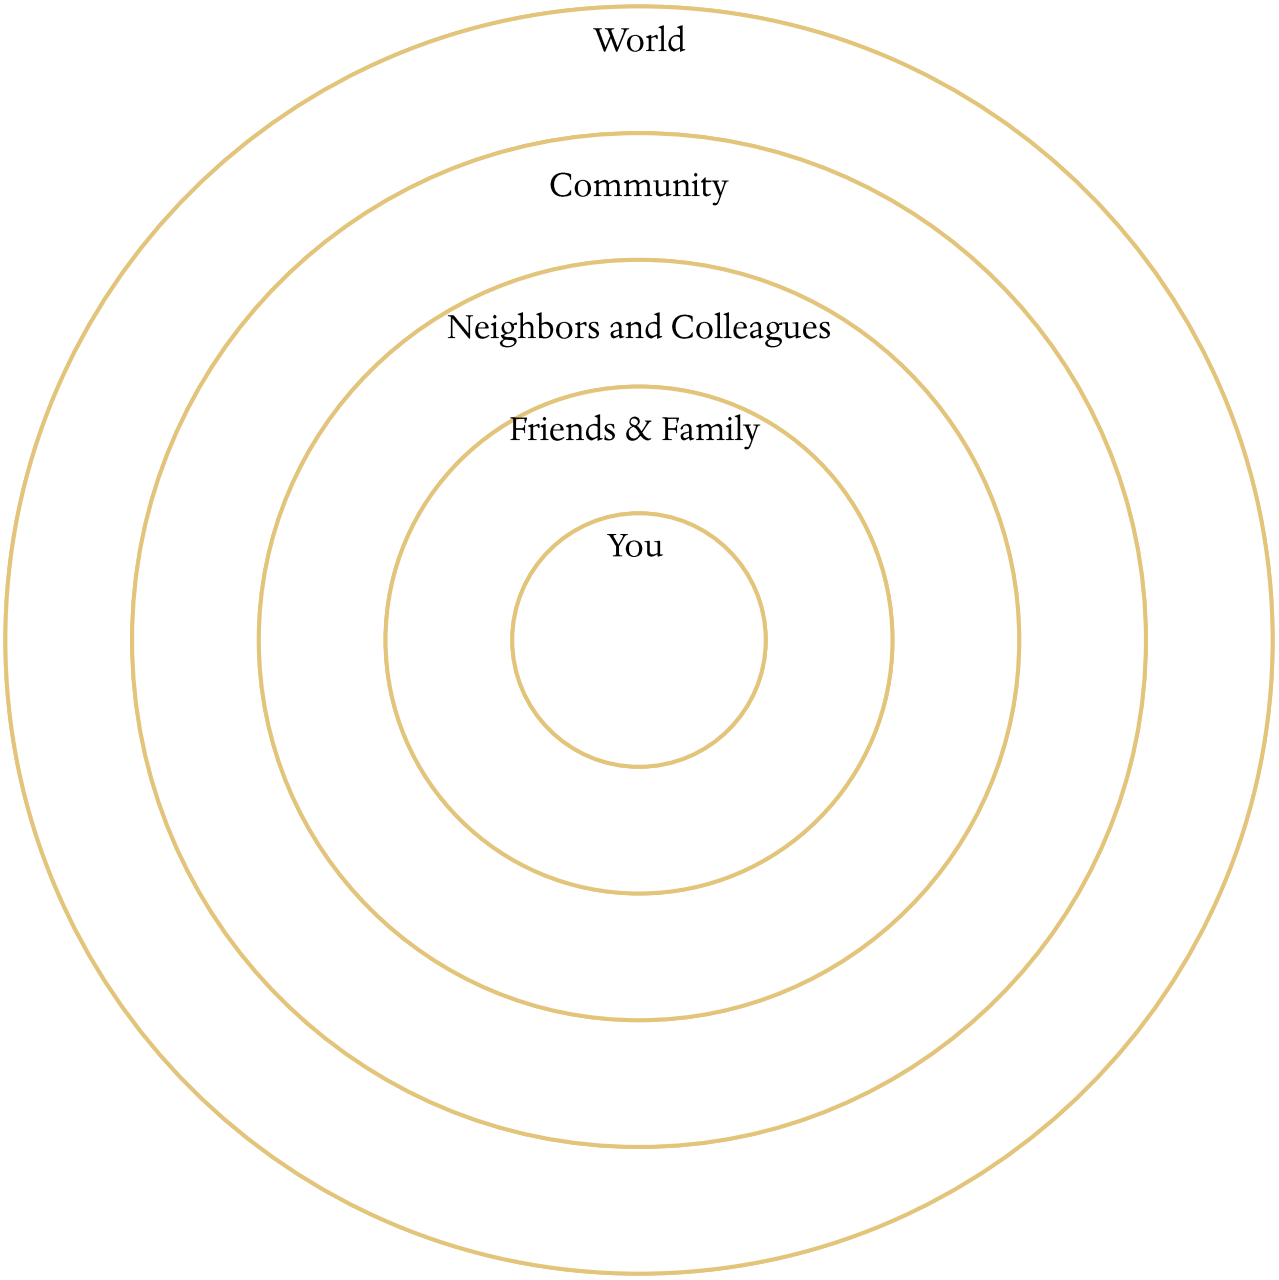

Cosmic Wishes

BONUS

🌊 The Ripple Effect 🌊

The strongest wishes are those that "ripple," positively impacting others beyond yourself. In this activity, you are the inner circle. Write in the outer circles the names of all the of people who will be affected by your wish.

🧠 **Fun Science Fact:** A purposeful wish, one that reaches out to help others, doesn't just ripple outward, it pulls others in. When people sense someone reaching for something meaningful, their mirror neurons fire and they're drawn to help carry it, the same "superhero effect" Joe discovers in *Cosmic Wishes* Book 1. The wider your wish ripples, the more hands rise to help.
